

SUGGESTION LIST TO ASSIST HIGH VIEW CONDO
ASSOCIATION RESIDENTS AND WORK CREWS

- Dryer lint traps be cleaned every time a dryer is used.
- Downspout extensions be raised during mowings and snow removal.
- Tree suckers be removed from tree trunks.
- Weeds be picked from rocks by those physically able.
- Residents make periodic checks for rocks that have escaped from their rock gardens and return them inside the edging.
- Do not confront lawn maintenance workers directly with complaints. Speak to your block captain who will contact the lawn maintenance liaison board member who will speak to the manager.
