3rd mile(+) •••

The Macoupin County Tails 5k offers a unique opportunity to win in 1 of 3 ways: complete the 5k (3.1 miles) route in the best time for your age group, come closest to your individual predicted time, or have your 5-person team come closest to their 5-person predicted total time. The “Predicted time” concept allows for a person walking/jogging the course to win his age division even though he might have the slowest time (“the turtle can win”). And 5-person teams have a reduced entry fee per person. Persons competing in the “predicted time” format will not be allowed to wear a watch and Mile-splits will not be read on the course.
