

## W H O W E A R E

*Potomac Valley Pet Rescue is a not for profit organization formed in the tri-county area to promote the welfare of pets in need and dedicated to.*

- (a) placing homeless animals in permanent and loving homes*
- b) reducing the number of dogs and cats being born through education and spay and neuter assistance.*
- (c) providing current and future pet owners with the information needed to provide a loving home and care for a pet.*

*PVPR is currently trapping, spaying, vaccinating and either adopting or re-releasing stray and wild cats in the Petersburg and Grant county areas. If you would like more information and to see photos, go to*

*Dedicated to the betterment of pet welfare and humane education.*

POTOMAC VALLEY  
PET RESCUE

## The Problem

*Potomac Valley Pet Rescue was formed in an effort to provide the area with a network of volunteers to rescue, transport and care for pets in need. The area is plagued with colonies of abandoned cats where the owners have just dropped them off in a strange place to fend for themselves. Stray, abandoned and unwanted dogs are a serious concern, both for the animals welfare as well as the public safety. Please help us help these animals and the community solve this problem.*

*PVPR is currently seeking 501c(3) status as a non-profit tax exempt corporation*

*A recent rescue from the area*

## What can be done?

Basically what is required is for people to be aware of and care about the problem. Potomac Valley Pet Rescue was formed by individuals who felt that something had to be done to help the stray pet situation in the area. We are just starting out but have already rescued or transported over 50 dogs and spayed or neutered 23 cats in the area. Veterinary care and boarding expenses comprise most of the groups expenses. We are working toward establishing a facility in the area to provide the animals and the public with a centralized base of operations to care and manage unwanted pets.

Please make a donation or volunteer to help, all skills are needed.

Foster care is required for animals as a temporary haven until placement can be arranged with a large rescue that will eventually find it a home. This usually takes no longer than two weeks.

Potomac Valley Pet Rescue relies solely on charitable contributions to achieve it goals. It is vital for Potomac Valley Pet Rescue to continue to receive generous donations for continued spay, neuter and rescue operations.

We would like to thank the volunteers that feed the stray cats and provide the only loving contact and nourishment they receive.

## A FEW FACTS

3 – 4 million pets are destroyed in this country every year because there are no homes for them.

In seven years one female cat and her offspring could produce 470,000 cats.

In six years one female dog and her offspring could produce 67,000 dogs.

Cat declawing is cruel and may cause permanent psychological damage to the cat. Declawing is amputation of the knuckle.

*Please consider the responsibility attached before deciding on pet ownership. Dogs and cats can live up to 20 years and will need a stable loving home throughout it's lifetime.*

Most pet abandonment is because of owner moving and not taking their pet.
